OSH – Small Hall Renovation Project Update (1) – DECEMBER 2023

Work is underway! There were a few little surprises - a bird's nest, evidence of where an old fireplace may have been located in the store room and a water leak in the old copper pipes underneath the Large Hall toilets (which will be remedied).

The old Small Hall kitchen units are presently sitting at the end of the Small Hall and should be out of the way. The Small Hall toilets are completely out of action – the **Lobby toilets can be used -** the **Large Hall and its kitchen will remain fully operational for the duration of the renovation project.**

The initial work involved the necessary ground work and demolition of the Small Hall kitchen and storage areas, which will be rebuilt so that the floor and roof levels align with the rest of the Hall, plus a full upgrade of the existing toilet facilities.

We will do all we can to ensure the Small Hall renovation project does not affect your existing Hire days/times and will try to switch Small Hall Hirers into the Large Hall wherever possible at no extra charge. Please rest assured the OSH Committee and our renovation project team will be doing everything we can to keep any disruptions to the absolute minimum for you.

Don't forget to check out our OSH Website (www.settlershall.co.nz) to make sure you keep abreast of all the activities we have happening over the coming months.

We also have our own FaceBook Page – please take a look to see our latest updates.

Please feel free to send this along to your Group attendees for their information.

As always, your news, comments and suggestions would be most welcome!

Below are a couple of photos of the Small Hall's "newly demolished" Store/Cleaner's Room and Kitchen - we look forward to showing you the "after" photos!
